

Infinity[®] 80 Gas Furnaces with Comfort Heat Technology[®] Feature

Enjoy enhanced comfort with 80.0% AFUE

58CVX

What You Can Expect From Carrier

Innovation, efficiency, quality: Our Carrier® Infinity® 80 gas furnaces offer intelligent electronics and multi-stage capabilities that take indoor comfort and energy-saving performance to new levels. Throughout our Infinity line, we never lose sight of the Carrier quality, environmental stewardship and lasting durability that have endured for more than a century. And, to ensure maximum year-round efficiency with both gas and electric heating capabilities, your dealer can include a new Infinity heat pump and Infinity Touch Control to create a HYBRID HEAT® dual fuel system.

Innovation

The Infinity® 80 gas furnaces include our Comfort Heat Technology® feature that accurately predicts the need for heating based on previous furnace cycles to effectively reduce temperature swings.

Efficiency

AFUE (Annual Fuel Utilization Efficiency) ratings are like your car's MPG – the higher the number, the greater the potential for savings. The Infinity® 80 gas furnaces deliver 80.0% AFUE heating and the potential for savings over an older, less efficient model you may be replacing.

Durability

Our PowerHeat™ hot surface ignition is one of the most robust and durable ignition systems available. It eliminates the need for a pilot light, reducing gas usage and promoting worry-free operation.

Humidity Management

As a part of your home's cooling system, an Infinity® 80 gas furnace with SmartEvap™ technology can be the key to enhanced comfort through precision humidity management. Include an Infinity Touch Control, Carrier® humidifier and an Infinity outdoor unit and let Ideal Humidity System™ technology deliver ideal comfort, all year long.

HYBRID HEAT® System

Combining an Infinity® 80 gas furnace, an Infinity heat pump and an Infinity Touch Control, a Carrier® HYBRID HEAT® system automatically switches between electric and gas heating to optimize the efficiency of each fuel source. It's the ultimate defense against unpredictable utility costs.

Sound

Our variable-speed blower distributes heated or cooled air at the lowest possible setting for the majority of the comfort cycle. Add our sealed combustion system and fully insulated cabinet, and you'll enjoy warm, winter heating that's quieter than a conversation.*

Limited Warranty

To the original owner, Carrier® Infinity® 80 gas furnaces are covered by a 10-year parts and 20-year heat exchanger limited warranty upon timely registration. The parts limited warranty period is five years if not registered within 90 days of installation. Jurisdictions where warranty benefits cannot be conditioned on registration will receive the registered limited warranty period. See warranty certificate at carrier.com for complete details and restrictions.

*Carrier manufactures gas furnaces that are among the quietest in the industry. We test our products in a sound laboratory specifically built to resemble a typical residence. Sound level recordings produced at steady state, single-stage operation (the most common operating condition), measured three feet from furnace. Other sound levels, mentioned for comparison, as published at http://www.noisyplanet.nidcd.nih.gov/SiteCollectionDocuments/Bookmark_2up.pdf.

The Total Indoor Comfort System

Your Carrier® dealer will recommend a system that is best suited to meet your home-comfort needs and local weather environment:

1. **Infinity® Air Conditioner** provides reliable, high-efficiency cooling for long-lasting comfort and energy savings.
2. **Infinity® Gas Furnace** provides reliable, high-efficiency heating for long-lasting comfort and energy savings.
3. **Infinity® Touch Control** allows precise temperature and humidity control along with programmable features to further customize your comfort.
4. **Zoning** sets different temperatures for up to eight different areas of your home for truly customized comfort and enhanced utility savings.
5. **Infinity® Air Purifier** improves air quality by capturing and killing airborne bacteria and viruses and other irritating airborne pollutants in your home.
6. **Humidifier** replenishes moisture to dry air.
7. **UV Lamp** inhibits the growth of contaminants on the evaporator coil, leaving your home with cleaner, fresher indoor air.
8. **Ventilator** combines fresh outdoor air with conditioned indoor air for improved air quality – great for today's tightly constructed home.
9. **Evaporator Coil** is matched with the proper outdoor unit to provide top cooling efficiency and years of reliable service.

The Carrier® Difference

If you could look under the hood of a Carrier® Infinity® 80 gas furnace, you'd see what drives the performance: a serious commitment to quality. Heating capacity is managed with a two-stage gas valve that can operate on low- or high-stage heat for quiet, consistent comfort. Our variable-speed blower provides just the right amount of airflow, running more consistently on the lowest speed possible for more even temperatures, reduced hot and cold spots, and enhanced humidity control as a part of your cooling system.

Infinity intelligence monitors conditions, comfort settings and previous furnace cycles and makes smart decisions on your behalf. You'll enjoy the results with warm, cozy winters and quiet operation. Additional comfort-enhancing functions include ComfortFan™ technology, which allows you to select furnace fan speeds from the Infinity Touch Control.

More Than a Century of Cool

In 1902, a determined engineer answered one of mankind's most nagging questions: How do we make hot, sticky, indoor air go away? In creating the world's first modern air conditioning system, Willis Carrier forever changed indoor life, and, more than a century later, the corporation that bears his name takes inspiration from his example.

Carrier continues to improve on our founder's breakthroughs, introducing new technologies that make life at home even cooler. Today, our nationwide network of experts continues to advance Willis Carrier's lifework. Your expert Carrier® dealer is equipped to evaluate your home and create a customized system designed around your lifestyle.
