

# Performance™ Series Horizontal Heat Pumps and Air Conditioners

Compact, reliable and up to 16.0 SEER/9.0 HSPF\* ratings

25HHA, 24AHA

## More Than a Century of Cool

In 1902, a determined engineer answered one of mankind's most nagging questions: How do we make hot, sticky, indoor air go away? In creating the world's first modern air conditioning system, Willis Carrier forever changed indoor life, and, more than a century later, the corporation that bears his name takes inspiration from his example.

Carrier strives to improve on our founder's breakthroughs, introducing new technologies that make life at home even cooler. Today, our nationwide network of experts continues to advance Willis Carrier's lifework. Your expert Carrier® dealer is equipped to evaluate your home and create a customized system designed around your lifestyle.

## The Carrier® Difference

If you could look under the hood of a Carrier Performance™ Series horizontal heat pump or air conditioner, you'd see what drives the efficient, reliable comfort: a serious commitment to quality. Our smooth-running compressor represents the quiet, reliable performance you expect. A galvanized steel cabinet, heavy-duty wire fan guard and WeatherArmor™ protection shields these units from exposure to hail, errant soccer balls, lawn equipment and more. All this in a compact cabinet that can be installed on a roof, under a deck, or on a balcony to save space, or even stacked to provide comfort for larger living spaces or zoned systems.

### Efficiency

SEER (Seasonal Energy Efficiency Ratio) and HSPF (Heating Seasonal Performance Factor) ratings are like your car's MPG – the higher the number, the greater the potential for savings. Performance™ Series horizontal heat pumps and air conditioners offer a range of efficiencies at or above your region's minimum and reach as high as 16.0 SEER and up to 9.0 HSPF\*.

### Environment

Carrier was the first to offer systems with Puron® refrigerant, which does not contribute to ozone depletion. By replacing an older, less efficient horizontal heat pump or air conditioner with a Performance Series system, you are reducing energy use and your environmental impact.

### Limited Warranty

To the original owner, Carrier® Performance™ Series horizontal heat pumps and air conditioners are covered by a 10-year parts limited warranty upon timely registration. The limited warranty period is five years if not registered within 90 days of installation. Jurisdictions where warranty benefits cannot be conditioned on registration will receive the registered limited warranty period. See warranty certificate at [carrier.com](http://carrier.com) for complete details and restrictions.
